INSTRUCTION FOR USE

PrevaHex

(2% Chlorhexidine Solution)

PrevaHex is a mint-flavoured aqueous chlorhexidine gluconate solution for adjunctive antimicrobial irrigation during endodontic treatment.

COMPOSITION

Chlorhexidine Gluconate, Glycerin, Purified Water, Mint Flavoring Agent

INDICATIONS FOR USE

- Antimicrobial irrigation of prepared root canals and adjunctive microbial control on canal
- dentine and in accessible dentinal tubules. Use as a final intracanal rinse after
- instrumentation when clinically indicated.

INTRACANAL IRRIGATION

1. Isolate the tooth with a rubber dam and complete root canal instrumentation.
2. If sodium hypochlorite (NaOCl) or EDTA was used, aspirate the previous irrigant, flush thoroughly with sterile water and aspirate again. Dry the canal with sterile paper points before introducing PrevaHex.
3. Use PrevaHex undiluted. Draw a fresh aliquot into a sterile endodontic irrigation syringe and securely attach a sterile side-vented irrigation tip.
4. Keep the tip short of working length and ensure it does not bind. Irrigate slowly with gentle pressure, allow coronal backflow and avoid apical extrusion.
5. Aspirate the remaining irrigant and dry the canal with sterile endodontic paper points before proceeding with the planned endodontic treatment

WARNINGS & PRECAUTIONS

- For professional dental use only. Do not swallow or inject into tissue.
- Do not mix with NaOCl or EDTA. Direct contact can form a precipitate.
- Avoid contact with eyes and the middle ear.
- Discontinue use if irritation or hypersensitivity occurs.
- Use in a well-ventilated clinical area.
- Keep out of reach of children.

CONTRAINDICATIONS

- Do not use in patients with known hypersensitivity to chlorhexidine.
- Avoid use in patients with a history of allergic reactions to oral antiseptics.
- Not recommended for children unless directed by a dental professional.

ADVERSE EFFECTS

- Temporary mucosal irritation, possible mild staining with repeated exposure and rare allergic reactions.

STORAGE CONDITIONS

- Store at room temperature (15–25°C)
- Keep container tightly closed
- Protect from heat and direct sunlight.

PRESENTATION

Ref.: PL-0149- PrevaHex- 100ml Bottle

SHELF LIFE

3 years from the date of manufacturing.

DISPOSAL

Dispose of according to local regulations and facility guidelines.
